

Outdoor Modular Kitchens

The Centre Piece of your Garden

CLIPPT modular outdoor kitchens uniquely combines the outdoor appliances you already have:

Egg BBQ's

A popular choice for the self proclaimed BBQ 'God' of the family, but does that 'God' have all the food perched on 2" on space and the rest of the group chatting in the house?

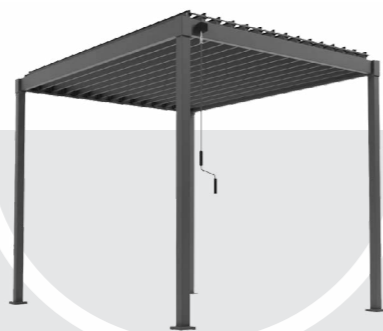

Outdoor Pizza Ovens

The alfresco tool of choice. But where do you set it up?

Pergola

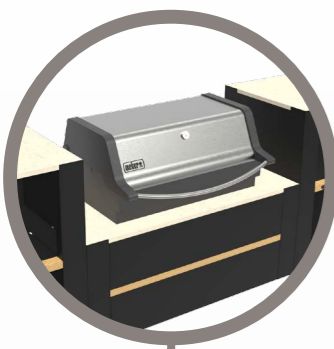

Easy and affordable pergola's are becoming a staple in gardens. Is a couple of chairs and a small space heater the best use of the space?

CLIPPT Modular Kitchens

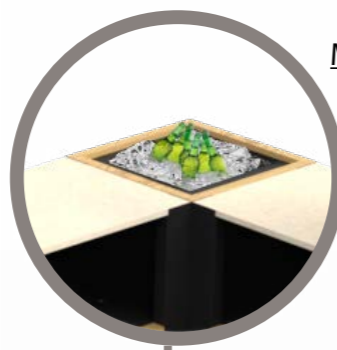

Integrate Your Appliances

Modular and configurable designs ensure your favourite garden appliances find the perfect home

Match Your Lifestyle

Whether you have green fingers, a master-chef requiring a herb garden, or somewhere convenient to cool the beers, CLIPPT has you covered

Strikingly Sleek Design

With a sleek timeless design to suit any space. Make it your own by configuring each module to bring your design to life. (See pg.3)

High end design, durability & practicality
Simple to realise outdoor kitchen system.

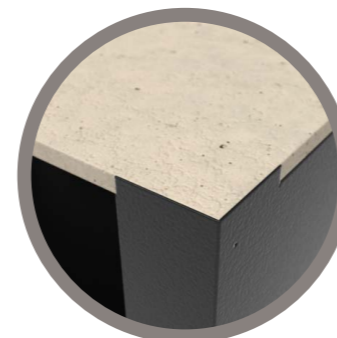

Long Lasting

Unlike most competitors who powder-coat mild steel, CLIPPT kitchens utilise high grade aluminium coupled with long lasting coating system, ensuring your kitchen will withstand the elements for years.

Porcelain Worktops

An ideal material for the application with unparalleled strength and durability with an aesthetic found in many indoor kitchens.

The Beauty of Simplicity

The modular "drag and drop" nature of CLIPPT means our kitchens can seamlessly integrate into your area. Decking, Patios, Balconies, simply place your units into position, level then affix. No flat-pack assembly. No bricklaying, carpentry, fireproofing, painting. Little or no landscape contractor hours. Just long-lasting enjoyment for you, friends and family.

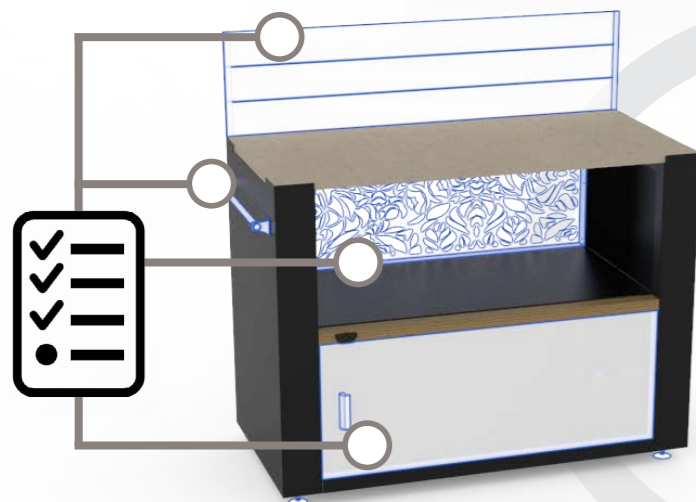

Configure

STEP ONE: Select Modules

CLIPPT offer a range of modules:
The building block of your outdoor kitchen

All modules are compatible with each other.

Select modules to maximise the usable space of your outdoor area

STEP TWO: Personalise Each Module

Once the building blocks are in place, make the kitchen you own.

You can configure the appearance, function and in some cases the size of each module to create a truly unique outdoor kitchen space.

Book a **TOTALLY FREE** design consultation

Let our experts turn your concept into reality.

No hassle. No pressure sell.

See pg 5 for details

Basis

The backbone of CLIPPT.

BASIS elegantly ensure you maximise the use of your outdoor space.

Decorative Back Panels

As standard **CLIPPT Basis** comes with solid back panels. Make your statement even louder and configure decorative back panels

Cupboard Doors

Full

Add a place to hide away your condiments, crockery or utensils.

Specify the **CLIPPT Basis** with full doors, or just have the door at the top or the bottom.

Demi - Top

Demi - Bottom

Self Levelling Feet

You can specify your Basis with industrial quality self levelling feet to enable installation of your CLIPPT kitchen almost anywhere.

Accessories

Backboards, Cooking Tool Racks & Rails can complete the look.

But our accessories don't end there.

From sinks to down lighting, tell your designer what you want and we will deliver.

Ignis

A perfect home for your cherished BBQ or outdoor cooking appliance.

Ignis 1200

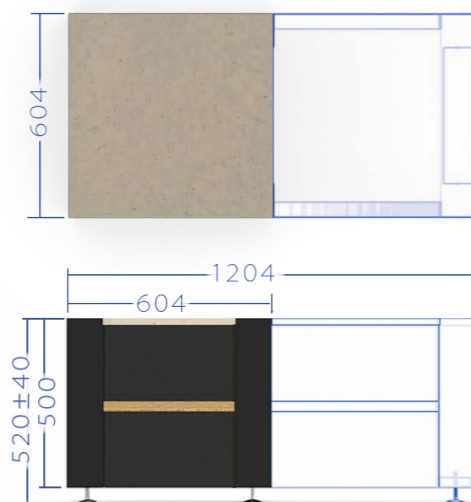

Ignis 600

Perfect Fit

CLIPITT integrates with your own choice of BBQ/Appliance.

Off the shelf, **Ignis** comes in 1.2m MAX and 0.6m MIN.

But you can configure Ignis to be any size between these limits to perfectly match your appliance(s).

Step on the Gas

If your appliance is Gas- no problem. The Ignis Gas is a little taller than Ignis, to allow for a correctly standing 13kg Gas Bottle.

Alternatively, if you're taller, Ignis Gas is a great option to raise the working height of your appliance.

Pick a design slot with our team

At times to suit you - including evenings

www.cliptt.co.uk

Whatever the Type

From big stainless grills, to an egg/kamado style appliances, Ignis has been designed to adapt and ensure you get the most out of your appliance.

Surround

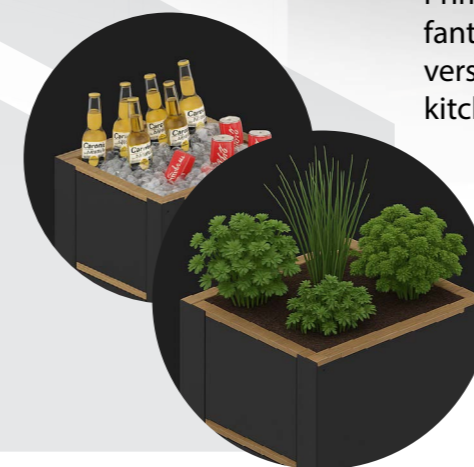

Primarily for circular appliances, why not maximise the work area with a hard wood surround designed to match the diameter of your appliance.

Vertere

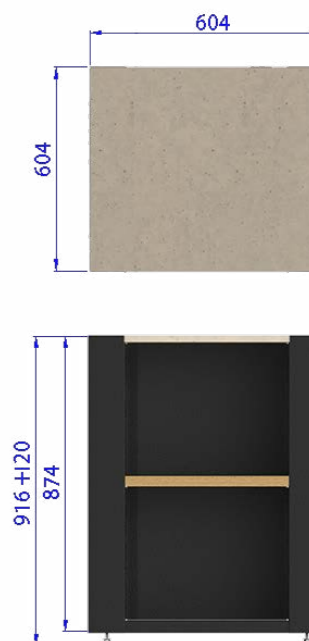

Small but mighty. Used as a statement end. Or used to connect units in a corner.

Primarily a corner unit. Vetere also make a fantastic statement end to a run of units. It's versatility as a planter helps this unit tie your kitchen into it's outdoor setting.

Whether it's for your favourite tippie or to grow fresh herbs, Vertere's top storage really help you maximise a "dead corner" in style.

Cavi

It's 600mm "hollow" allows you to perfectly place your fridge or other outdoor appliance

Be honest, it's the dream isn't it. Nice ice cold drink to hand directly in your garden on a hot day. CAVI enables you to integrate an outdoor appliance into your garden. Whether that's a fridge, or a fridge. But it's going to be a fridge... isn't it!

Pricing

Hate it when companies don't state the price?
Normally when you see "POA" or "Call to Enquire" it means "Overpriced".

At CLIPTT we're proud of our competitive prices

Due to the hundreds of configurations we don't do big boring tables of price-lists.
Instead, below see some kitchen examples and the price of the standard units to achieve the layout.

From £2745*

A classic straight run of units.
Spanning an impressive 3.6 meters
That's almost 12' of usable workspace.

From £3545*

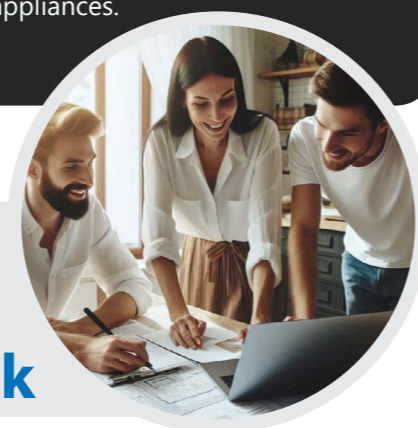

A compact sized corner that packs a punch
Perfect to separate cooking from prep.
2.4m x 1.8m (almost 8' x 6')

From £4760*

A corner with a large run.
Space for multiple appliances.
Even a space for an outdoor fridge.
4.2m x 1.8m (approx 14' x 6')

* Images shown may include optional extras. "From" prices refer to standard units only and do not include additional options or appliances.

Services

Annual Maintenance

Added Peace of Mind

Why not take the hassle out of looking after your CLIPTT kitchen

- Extend your warranty
- Small monthly fee
- Annual maintenance check
- Annual deep clean
- Accidental cover on your porcelain worktops.

Only £20 a Month

Speak to one of our team during a design consultancy for more information.

Installation

Sit back and Relax

CLIPTT comes pre-assembled.
It's designed with simplicity in mind.

To install the units it either requires ground anchoring threaded stainless steel bar (supplied as standard)
Or the units require affixing with adjusting stainless feet (optional extra).

But at only £600 for a standard install, you might be tempted to let us take the hassle for you.

We can discuss install options with you before finalising an order.

Speak to your Design Consultant to pick the option that suits you.

Justification

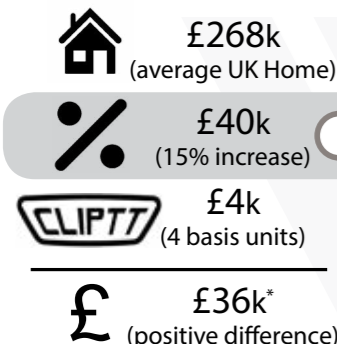

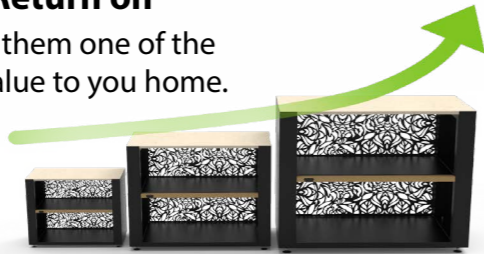

You *know* you want one..
..We *know* - that you *know* - you want one.

Here’s some statistics to help

Sound Investment

Outdoor kitchens can achieve an **Return on Investment of 100%**, making them one of the top outdoor projects for adding value to you home.

Source: Better homes and Gardens ²

Add Space & Value

An outdoor kitchen dramatically adds appeal, functionality and additional living space to your home.

The appeal of this additional space results in:
15% average property value increase
Source: Ideal Home ¹

Save Money & Get Together More

The cost of socially dining out continues to rise.

Based on a group of 4, utilising your outdoor kitchen just once a week from May to September a £4000 CLIP77 kitchen will literally pay for itself in under two years.

With it’s weatherproof design and untarnishing materials CLIP77 will still be the focal point of your garden well after two years.

DINING OUT

	Starter/Dessert	£8.95
	Main	£17.95
	Medium Wine	£6.50
		4 people - £133.60

	Bottle of Wine ...	£8.95
	38 pc BBQ Pack ...	£24.99
		4 people - £33.94
